EXAMINER'S COMMENT/ATTACHMENT TO NOTICE OF ALLOWANCE

Applicant's amendment, response, and sequence listing received on 3/17/05 have been entered. Claims 35-62 are pending in the instant application.

In view of applicant's amendments to the claims, all previous grounds of rejection of the claims are withdrawn.

Claims 35-62 are considered free of the prior art of record and allowed.

Nucleotide and/or Amino Acid Sequences

Applicant's amendment to the specification and submission of a new sequence listing places the application in compliance with 37 CFR 1.821-1.825.

Drawings

Applicant's submission of a new version of Figure 5 on 3/17/05 is acknowledged. However, the new Figure 5 does not comply with 37 CFR 1.121(d). The previous office action provided the current guidelines for how to affect drawing changes- see the previous office action and below. Replacement sheets must be identified in the top margin as "Replacement Sheet".

Art Unit: 1632

Further, the new copy of Figure 5 continues to be illegible. Therefore, a new corrected drawing for Figure 5 in compliance with 37 CFR 1.121(d) is still required in this application.

Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments, or remarks, section of the amendment. Any replacement drawing sheet must be identified in the top margin as "Replacement Sheet" (37 CFR 1.121(d)) and include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheets must be clearly labeled as "Annotated Marked-up Drawings" and accompany the replacement sheets.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will

Art Unit: 1632

result in ABANDONMENT of the application. Please note that the time period for response is three (3) months from the mailing date of the notice of allowance and that NO EXTENSIONS OF THIS TIME PERIOD ARE AVAILABLE.

Information Disclosure Statement

A second signed copy of the 1449 filed on 10/7/03 is attached to this office action. The examiner has found that the first signed copy mailed to applicants on 6/29/04 failed to include the examiner's initials next to reference C01. The attached 1449 indicates full consideration of the C01 reference.
